Just use your smartphone to read the QR barcode displayed on the bus stop's timetable, and it will tell you where the approaching buses are, how long you have to wait, where they will take you, etc., making it easier than ever to check which bus you should get!

"Explore Kawachinagano" Sightseeing Navigation App

This mobile app provides an illustrated map that will show your current location as well as the walking route, and information on a variety of sightseeing facilities. It is available in Japanese, English, Chinese and Korean. (The bus route map is in Japanese and English only.)
